

The materials and additives listed below are examples of the variety of materials that APP processes on a daily basis

Resins Overview

ABS	Polyethersulphone
ABS/PC Alloy	Polyethylene
Acetal	Polyphenylene Oxide
Acrylic	Polyphenylene Sulfide
Acrylic Copolymers	Polyphthalamide
ASA	Polypropylene
Conductive Compounds	Polystyrene
PVC (Rigid & Flexible)	Polysulfone
Dissipative Compounds	Polyurethane
Nylon	SAN
PC/PBT	Thermally Conductive
Polycarbonate	Thermoplastic Elastomers
Polyester	EMI Shielding Compounds

Fillers/Additives

Carbon Fiber Filled	Flame Retardant
Glass Fiber Filled	Glass Bead Filled
Mineral Filled	Rubber Modified
Talc Filled	UV Stabilized

Colorants:

Stock Colors	Custom Color (Pantone Color Match)	Custom Color (Match to existing part)
